Allergens	The Viterra Pulse facilities are dedicated to processing only pulses. There is no risk of cross contaminants in production facility. Soy is present in some grower fields and may be used as a rotating crop. Pulses are dry cleaned prior to shipment but trace amounts may still be present. Viterra cannot guarantee that their products are 100% free from traces of wheat or soybeans in their final product.																																																																																			
GMO Status	GMO Free – Document available upon request																																																																																			
Chemical & Pesticide Residues	Levels conform within the maximum levels as specified under CODEX and the Australian Food Standards Code																																																																																			
Claims & Certifications	Halal – not currently certified Kosher – not currently certified																																																																																			
Packaging	25kg net weighted new polypropylene bags																																																																																			
Labelling Format	Bag tag with name of product, net weight, pack date, best before date and line number																																																																																			
Shelf Life	2 years from packing date if kept in optimal storage conditions																																																																																			
Optimal Storage Conditions	Keep cool and dry: 10 – 25 degrees Celsius																																																																																			
Applicable Quality Certifications	FSSC 22000																																																																																			

Guidance on use of information:

The information in this specification should be taken as a guide only. Values can vary with variety, conditions of growth and age of the product when used. We have taken a reasonable effort to ensure that the information is true and accurate at time of writing

Intended Use:

This product is an agricultural commodity processed in order to meet or exceed this specification as detailed above and is intended for sale to manufacturers and wholesalers. It is the responsibility of the purchaser to ensure the product is suitable for sale to their business and retail customers. This includes provision of the appropriate consumer labelling content that incorporates a 'direction for use statement' and/or 'warning statements' to mitigate any risks arising from the nature of the product (i.e. further cleaning/rinsing/cooking prior to consumption)
