GMO Status	GMO Free																										

Allergens	Supplier works to contain 3 main allergens: wheat, mustard and soybeans. Allergens are not handled however there is the possibility that there are traces in incoming raw product to our facility. Before the grain is purchased from producers, samples are evaluated for such contamination. Measures are in place to remove traces of allergens from finished product.
Claims & Certifications	Kosher – Certified Halal – Inherently suitable
Packaging	25kg net weighted polypropylene bags
Labelling Format	Bag tag with name of product, net weight, pack date, best before date and line number
Shelf Life	2 years from pack date if stored in optimal conditions
Optimal Storage Conditions	Keep cool and dry: 10 – 25 degrees Celsius. <14% moisture
Applicable Quality Certifications	Simpson Seeds: ISO 22000 TFB Trading: HACCP

Guidance on use of information:

The information in this specification should be taken as a guide only. Values can vary with variety, conditions of growth and age of the product when used. We have taken a reasonable effort to ensure that the information is true and accurate at time of writing.

Intended Use:

This product is an agricultural commodity processed in order to meet or exceed this specification as detailed above and is intended for sale to manufacturers and wholesalers. It is the responsibility of the purchaser to ensure the product is suitable for sale to their business and retail customers. This includes provision of the appropriate consumer labelling content that incorporates a 'direction for use statement' and/or 'warning statements' to mitigate any risks arising from the nature of the product (i.e. further cleaning/rinsing/cooking prior to consumption)
